This article's points are from the South African IMPACT paper by S. M. Goodson (I've titled to **THE REAL REASON FOR THE 1 & 2 WORLD WARS**) about Major Clifford Hugh Douglas (1879 - 1952) who wrote "Systems were and the interest of (folk) that is self-political or economic. "Douglas said on "absolute economic security" (folk) under own vine and under own fig tree; none will make them afraid." In his words, **"what we really want of existence is not that we will be put into somebody else's Utopia, but we will be put in a position to make own Utopia."** Douglas lecture toured Japan fore WW2 with his idea of a monetary reform named Social Credit, that the Japanese practised, by changing the Central Bank of Japan, most owned by the Japanese Imperial Household, in 1932 changed into The Bank of Japan Law and in 1942 into a like of 1939 German Reichbank Act, in which time industrial 136% and manufacturing output 140% rose, incomes 241% and GNP 259% up, but in the critical economic situation e.g. war became a prime nationalist finance and currency bank. as all combatant nation's, but Capitalist, 'Communist' ones, despite their dreamers, i.e. **Trotsky** a practical dream for Zion's rule, and Mandela's rainbow one, a Zionist friend's loan lured one, to a debt skint Zionist colonised shackled S. Africa **with all its nature's bred, fine, colourful Folk Family race's - gone, as Britain's etc.** due to being debt buried, under masses of Zion's compound interest loans. Douglas tried to prevent by Social Credit that **Benito, Adolf, Hideki** tried to eternalise in varied ways, to stop Zion's Capitalism's **DEMOCIDAL DEATH OF THEIR FOLK**, but due to relative weak armament production and work power, they were, after a bitter fight, bent and Social Credit aims soon replaced by Rothschild's Credit made Social Debit

During World War I, Douglas worked at Farnborough England, as an engineer and noted that the weekly total costs of goods produced was greater than the sums paid to individuals for wages, salaries and dividends. This seemed to contradict the theory of classic Ricardian economics, that all costs are distributed simultaneously as purchasing power. **PTO**

Troubled by the seeming difference between the way money flowed and the objectives of industry ("delivery of goods and services", in his opinion), Douglas applied engineering methods to the economic system, so he collected data from over a hundred large British businesses and found that in nearly every case, except companies becoming bankrupt, the sums paid out in salaries, wages and dividends were always less than the total costs of goods and services produced each week: consumers did not have enough income to buy back what they had made. He published his observations and conclusions in the magazine *The English Review*, and suggested: "That we are living under a system of accountancy which renders the delivery of the nation's goods and services to itself a technical impossibility." He later formalised the observation in his A + B theorem, and proposed to eliminate the difference between total prices and total incomes by raising consumers' purchasing power through a National Dividend and a Compensated Price Mechanism.

Douglas, said the true purpose of production is consumption, so production must serve the genuine, freely expressed wants of consumers. To achieve this, he believed each citizen should have a beneficial, not direct, inheritance in the communal capital given by complete access to consumer goods assured by the National Dividend and Compensated Price and thought that consumers, fully provided with adequate buying power, will make a policy of production by use of their monetary vote. & [6]:89–91 In this view, economic democracy does not mean worker control of industry, but democratic control of credit. & [6]:4–9 Removing the policy of production from banking, government, and industry, social credit envisages an "aristocracy of producers, serving and approved by a democracy of consumers

The policies of social credit drew wide interest in the decades between the world wars of the twentieth century because of their relevance to economic conditions of the time. Douglas called attention to the excess of production capacity over consumer purchasing power, that was also observed by John M. Keynes in his book, *The General Theory of Employment, Interest and Money*. While Douglas shared some of Keynes' criticisms of classical economics, his unique remedies were disputed and even rejected by most economists and bankers of his time. Remnants of social credit still exist within social credit parties in the world, but not in the purest form first put by Douglas.

What woke my idea of Social Banking, was the unemployment of producers and lack of income to buy what they made, until they can work again **after their** work was stole and sold by parasites, at no cost, for max profits, **when they can be sold to better the Social Services e.g. paying 3/4 of the unemployed their average wage until like employable or re skilled, to have our folk the most proud to be all round, social classless producers, clean or dirty, hard or soft, IN AN ANTI ZIONIST USURY, CAPITALIST BANKERS, FOLK BANK SERVED BREXIT, worthy to survive in the universe, and so reject fostering or importing cheap labour's slummers of the world and universe.** Then I accidentally found, a maybe answer to my quest, in an **IMPACT** article called Social Credit that said "Worth of money is its purchasing power relative to its producers pay" but I noted differing incomes administration **may be over civil serviced and bureaucratically corruptive.** Also to need, **as any system**, assess day's of the cost of its average bought **weather dependent** - farm products; - **wares**, dependent on available raw materials; - **services etc.** dependent on health, that equate its folk's social currency's worth of the fruit of their work and gives a fluxed currency's worth. But, daily reckoned costs would cause chaos **daily retail prices, wages**, so we must use the past year's average prices. To, only need change Capitalism etc to get **Social Just Folk Co-optimism** by National Folk Banking, whose solidity will be the value of its safe depositors, ever keeping its none inflated coin's nominal worth, as the arithmetical value of numbers and eternal as smart wily Robber Baron Rothschild etc **whose kin grasped and clasped the world power of money**, and use their monetary credit to lure and subdue their borrowers with money printers, that feed their borrowers loan's accepted compound interest, whose eternality have no material validity than their brains deceived concept of being, by ever growing numbers, **bled until deadl with homes, businesses, lands in the alien hands of their creditors - and once proud owners, are suicidal debtors.** **Whilst under democratic folk ownership we have only its Bank's run costs of real private, social none compound usury interest loans, got by borrowers, to be repaid within 5 year, or by 3 securing like bank's shared deposited currency, that cannot be withdrawn till debt is paid, as it's security given at time of the borrower's got loans, to eternally help auto dynamically, keep our folk's social currency's worth equate the fruit of our work - in own, homes, businesses and countries - WORKING TO FREELY LIVE AND NOT 'LIVE' TO BE WORKED - AS SLAVES** FRANK. L. T. MC FADDEN

Louis Thomas Mc Fadden (July 25, 1876 – October 1, 1936) was a Republican member of the United States House of Representatives from Pennsylvania, serving from 1915 to 1935. A banker by trade, he was against the Federal Reserve System. After the expulsion from Washington D.C. of the veteran petitioners for war pension pay, of the Bonus Army, that was brutally crushed by President Herbert Hoover in 1932, which **Mc Fadden** called "the greatest crime in modern history", and moved to impeach H. Hoover and introduced a resolution bringing conspiracy charges against the Board of Governors of the Federal Reserve, that he said was a (Zionist Pseudo) Jew's enforced usury driven bank system, that we are forced to accept, that Mc Fadden fought against, in memory of **Benjamin Franklin?** and 'tis said was assassinated, as were and are others like him e.g. President Kennedy; Gen Sec Stalin, for against being lured to tax their folk for Zion's aims, **which make Zion's puppets 'our' rulers, shit scared of them.** Mc Fadden's impeachment resolution was defeated by a confidence vote of 361- 8; for President Hoover. According to Time magazine McFadden was "denounced and condemned by all Republicans for his 'contemptible gesture'." Central Press Association reported that he was "virtually read out of his party .. [had] his committee posts ..taken away from him was ostracized by Republicans [and] called crazy .. Sen. David A. Reed (R-PA) said "We intend to act to all practical purposes as though he had died **"FROM THE MOUTH OF A TYPICAL ZIONISED DEMOCIDIC DEMONISER"**

Benjamin Franklin 1706-90 "There is a big danger for the United States of America, this great danger is the (**now Zionist fake**) Jew. Gentlemen, in every land that the Jews have settled in, they have sunk the norm level and lowered the degree of commercial honesty. They have remained apart and unassimilated, **and created a state within a state**, and when they are opposed they try (**by usury**) to strangle the nation financially as the case of Portugal and Spain. For more than 1700 years, they've lamented their sorrowful fate namely, that they were driven out of their claimed motherland, but gentlemen, **if the world today gave them Palestine as their property**, most would immediately find pressing reasons for not returning there. **Why ?** For they are vampires, who can't live amongst themselves; they must live among Christians and others who do not belong to their race. If they are not excluded from the United States by the Constitution, (**How right he was**) within less than a 100 years, they will stream into this country in such numbers they will rule and destroy us and change our form of Government **for which we Americans shed our blood and sacrificed life, property and personal freedom.** If the Jews are not excluded within 200 years our children will be working in the fields to feed the Jews while they stay in the Counting House gleefully rubbing their hands I warn you, gentlemen, if you do not exclude the Jews forever, **your grand-children will curse you in your graves.** Their ideas are not those of Americans even when they've lived among us for ten generations. The leopard cannot change its spots. The Jews are a danger to this land and if they are allowed to enter they will imperil our institutions - "they should be excluded **F.P.W**
